

New Special Education Administrator Network – Year 2

Participants from the 2019/2020 New Special Education Administrators Networking Group will continue to move through “Areas of Focus”, to include continuing to gain foundational knowledge of the law, which can contribute to the disposition and skills necessary to build special education instructional leaders, leading to improved outcomes for students with disabilities.

During these network meetings, participants will: have the opportunity to reflect and evaluate and receive coaching aligned to current district policies, practices and processes specific to special education; they will learn how to work in district teams as strong collaborative leaders that will help prepare them to be instructional leaders in the area of special education; and will conclude the year by completing a program self-reflection tool to support identifying areas of strength and need through a gap analysis in order to align program improvement efforts to overall school improvement.
