

****February 4, 2021 – March 4, 2021 – April 22, 2021 – May 13, 2021****
10:00 a.m. to 12:00 p.m.

During 2020, the need for family and community engagement increased dramatically as parents partnered with educators to continue their students' learning. This virtual network series is designed for administrators and district leaders to explore evidence based practices around family and community engagement. Each 2 hour session will focus on a particular topic, including:

- An overview of family and community engagement practices, then and now
- Evidence based strategies and family and community engagement frameworks
- Alignment of family and community engagement with school improvement efforts
- Tools for evaluating family and community engagement

Outcomes:

After attending these sessions, participants will be able to:

- Describe evidence based practices to improve family and community engagement in schools
- Create action steps to infuse family and community engagement into their school improvement goals
- Choose and use at least one tool for evaluating family and community engagement in their districts and buildings
- Describe evidence based frameworks for family and community engagement
- Create an action plan for the 2021-2022 school year to align family engagement practices with school improvement plans.

All sessions will be held virtually and will include time to network, learn new skills, and plan for next steps in schools. Would you like to build your family and community engagement toolkit? Books, supplies and other resources will be given to participants who attend each meeting.
